Subject: Clean Copy Submittal to Add Mine Structure to the Rilda Portal Surface Facilities, Task ID #3064, PacifiCorp, Deer Creek Mine, C/015/0018, Emery County, Utah

PacifiCorp, by and through its wholly-owned subsidiary, Energy West Mining Company, "Energy West", as mine operator, hereby submits clean copies to add a reclosure structure to the Deer Creek Mine, Rilda Canyon Portal Facilities.

The amendment for the construction of the reclosure switch platform was submitted on September 22, 2008. The Division conditionally approved this amendment (task ID #3064) on October 21, 2008. In discussions with Jim Smith, permit supervisor, it was agreed to submit 8 clean copies so that the information could be incorporated as an Appendix into the MRP since the permittee was in the process of updating Volume 11 to include as-built information. Therefore, included with this submittal is a separately tabbed Appendix for the Engineering Section in Volume 11. The supporting plan and bonding information will be placed behind this tab:

- Tabbed Appendix divider: R645-301-500 Engineering, Appendix A
- Drawing: Deer Creek Mine, Rilda Canyon Surface Facilities, Proposed Reclosure Platform
- Bonding information

As Energy West completes the update to Volume 11, the reclosure switch will be included within the text section of R645-301-500 Engineering and shown on the surface facility map. Upon submission of the updated Volume 11, all facilities in Rilda Canyon, including the reclosure switch, will be shown in their as-built condition.

If you have any question or concerns regarding this submittal, please contact Dennis Oakley at 435-687-4825.

Sincerely,

Kenneth S. Fleck
